THERE'S AN APP FOR THAT!

COOL APPS FOR A HOT SUMMER

'Tis the season for grilling, travelling, gardening, and outdoor fun! However you plan to spend your summer, you can bet that—as they say—there's an app for that. MGPL is here to suggest some apps for your smartphone or tablet to get you started in planning and enjoying your summer.

For exploring around the area, try Chicago's official tourism app, **Choose Chicago**. Browse festivals and events, find attractions nearby, and discover dining and deals in the city.

If you're traveling a bit farther, check out **TripAdvisor**. Find hotels, restaurants, flights, or things to do with this handy app. You can also use their **TripAdvisor Offline City Guides** to avoid data charges when you're out of your network or overseas.

If you're out and about and in need of a wi-fi connection, use **Free Wi-Fi Finder.** Use it with a connection on the go, or download the offline database to always have access to information about Wi-Fi hotspots.

For those beach-reading days (or those days when you just need to stay cool inside), there are a number of great reading apps out there. **OverDrive Media Console** is the library's e-book app; download it to borrow e-books or e-audiobooks from our MyMediaMall catalog and read or listen on your device. Zinio is the library's new e-magazine service; create an account and browse online, then use the **Zinio** app to read popular magazines on your device. For help with either of these services or to schedule a one-on-one tutorial, call the Adult Services desk at 847-929-5101.

Stay cool indoors and keep up with summer blockbusters with the **IMDb** app. Use it to find local movie showtimes and look up movie information.

If you prefer to stay outside, use **Map My Run** to track your distance and speed while walking, running, or biking. You can also use the app to get ideas and find other users' routes to try out.

Get your garden in gear with **Garden Time Planner**, a tool to help you determine when to sow, transplant, and harvest your vegetables and herbs. Use the app to plan your garden and find video tips. Quick, need to identify a plant or weed? Use **Garden Compass** to snap a photo and get the information back that you need.

Once you've harvested your bounty, fire up the grill and barbecue with the help of the **Weber Grills** app, no Weber required. The app has recipes, skill-building tutorials, and food-prep instructions.

However you're spending your summer, you can find some apps to help you make the most of it. If you're curious to learn more about apps and devices, feel free to contact the Adult Services Desk!
